

*Aleksandras Abisala, Chairman ABCL
Lithuania*

Dear Mr. Abisala,

Greetings from ICMCI! We are in the midst of exciting times with plenty of opportunities and challenges ahead on a never-before scale.

For ICMCI, this is the time when we make the breakthrough that will finally take us to newer destinations and higher levels of service to our members across 48 countries.

The news of the work done by our Dutch member, in the training and certification of consultants in Lithuania under your leadership, has been absolutely wonderful. Each time Rob Wagenaar would give us some more good news about the connecting together of management consultants in your country and each time we were more excited than ever before. I am absolutely delighted that today you are all well on the way to making a strong and long lasting foundation for the representation of the Management Consulting profession in Lithuania, and are also well on the way to reaching eligibility for ICMCI membership. I will look forward to the day when I can congratulate you all and welcome you into the ICMCI fold.

We are informed that there are 28 CMC Certificates being issued to newly certified consultants at a high level event in Vilnius on February 11, 2011. On the eve of this major event marking a new direction for management consulting, I wish you success and good wishes.

Warm regards,

*Aneeta Madhok, PhD, CMC. GPHR
